Michael Monyok focuses his practice on intellectual property matters and represents startups to large public companies in all aspects of intellectual property procurement, management, licensing, and litigation. Michael's intellectual property work has included a range of technical subjects, including machine-vision guidance systems, human/computer interaction, robotics, data processing, and nano-materials. In addition to his intellectual property work, Michael assists startups and emerging businesses navigate the complex legal issues that often face new ventures, from entity creation to a successful exit. Further, with a technological background, Michael is also a valuable asset to his clients in cybersecurity matters.

Representative Matters

- Working with inventors in preparing and prosecuting patent applications.
- Assisting clients challenge patents at the Patent Trial and Appeal Board.
- Drafting IP license agreements.
- Litigating patent, trademark, and copyright infringement matters.
- Counseling clients seeking venture funding.
- Advising clients experiencing a cybersecurity breach.

Court Admissions

- United States Court of Appeals for the Third Circuit
- United States District Court for the Western District of Pennsylvania
